

StoryTeller™ Interactive Touchscreen System from AccuWeather

Invigorate your message and engage your visitors with **StoryTeller!** StoryTeller Interactive Touchscreen System, created by AccuWeather, is the secret to fresh, lively, personalized latest-technology displays that speak directly to your visitors and showcase your information.

StoryTeller™ Interactive Touchscreen System

INTERACTIVE TOUCHSCREEN SYSTEM
CREATED BY  AccuWeather

/ StoryTeller can be used in multiple ways:

- As an “info-finder” where visitors interact and call up information in a highly visual, easy, cutting-edge way, displaying items including graphics, videos and other detailed material.
- As a “way-finder” to provide users with directions or additional information as a cost-effective and innovative solution to your staffing needs.
- As a teaching tool in a workshop or briefing-room setting, backed by customizable and sponsorable applications, that bring any message to life.

StoryTeller allows you to directly incorporate live HD and SD video, images, movies, and web content for engaging and tailored presentations. The proprietary interactive touchscreen interface includes special features to easily move between information displays and to quickly swipe from one full-screen scene to the next.
